

KALA&KRITI

Crafting Models, Designing Dreams

www.kalankriti.in

Introduction

K&K – Kala & Kriti is a premier architectural model-making company, renowned for turning blueprints into breathtaking physical realities. With an artistic soul and engineering finesse, we specialize in the design and construction of detailed architectural models that reflect vision, structure, and perfection.

Established over 30 years ago, we've become one of the most trusted and experienced players in the field, offering a perfect blend of artistic craftsmanship, modern technology, and architectural understanding.

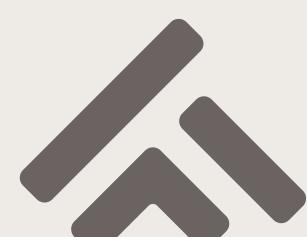

Our Legacy of Excellence

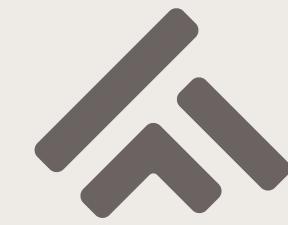

With over three decades of continuous innovation, K&K – Kala & Kriti has:

- Over 30+ Years of Expertise in model making and miniature construction.
- A dedicated in-house team of 30+ professionals, including skilled model makers, architects, designers, engineers, and project managers.
- Successfully delivered 500+ projects across a diverse range of industries and categories.
- Proudly executed 20+ international projects across countries like the UAE.

Our journey has been one of precision, passion, and purpose, delivering timeless miniature masterpieces that reflect larger-than-life dreams.

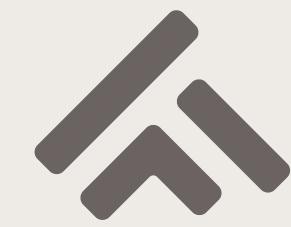

At K&K, we create architectural models across all industries and scales, capturing every nuance and technical detail. Our domain expertise includes:

- Large-Scale Residential Societies – From high-rise buildings to integrated townships
- Schools & Educational Campuses – Highlighting academic infrastructure and layout
- IT & Tech Corporate Parks – Modern commercial complexes with precise scale and proportion
- Shopping Malls & Retail Spaces – Showcasing commercial appeal and spatial flow
- Government Projects & Smart Cities – Detailed visualization for administrative planning
- Spiritual & Religious Places – Temples, meditation centers, and sacred architecture

From conceptualization to delivery, we ensure every model communicates its architectural purpose and aesthetic charm.

Our Expertise – What We Build

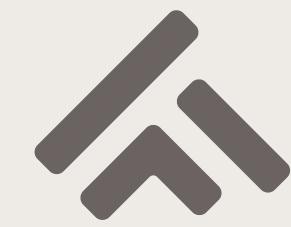

Residential Societies

At K&K – Residential society models are at the heart of our expertise. With over 500+ residential models successfully delivered, we have helped architects, builders, and developers visualize and present their housing concepts with precision and elegance.

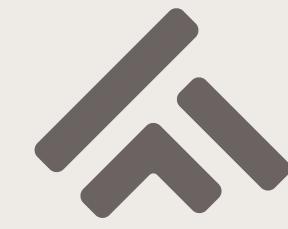

- Delivered 500+ residential society models across India and internationally
- Expertise from small villa layouts to large integrated townships
- Projects delivered in Delhi, Mumbai, Pune, Hyderabad, Ahmedabad, Bengaluru, Dubai, Singapore, and more
- Includes realistic elements: trees, vehicles, lighting, water bodies, and human figures
- Night-view LED lighting and interactive components (on request)

Schools & Educational Campuses

- Delivered numerous educational campus models for schools, colleges, and universities
- Expertise in K-12 schools, international institutions, engineering & medical colleges, and university master plans
- Models showcase academic blocks, hostels, admin buildings, playgrounds, and auditoriums
- Emphasis on functional zoning, student movement flow, and campus aesthetics
- Used in board presentations, investor pitches, foundation-laying ceremonies, and expos
- Integrated lighting systems to highlight key infrastructure (labs, libraries, etc.)
- Created models for CBSE, ICSE, IB schools and global educational foundations

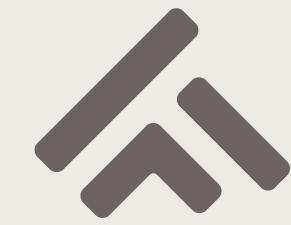

IT & Tech Corporate Parks

- Delivered high-precision models for IT parks, tech campuses, and corporate HQs
- Served clients in Bengaluru, Hyderabad, Pune, Gurugram, and international tech hubs
- Models include office towers, parking zones, green spaces, helipads, utility buildings, and access control areas
- Designed to highlight infrastructure planning, mobility flows, and entry-exit management
- Integrated LED lighting for internal floors, building highlights, and pathway lighting
- Optional interactive features (like lift-out sections or touch-screen guided models) for exhibitions

Shopping Malls & Retail Spaces

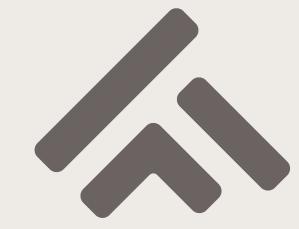

- Created detailed models for malls, retail plazas, and mixed-use complexes
- Showcase anchor stores, retail units, food courts, cinemas, atriums, and parking
- Built to illustrate visitor movement, zoning, and aesthetic appeal
- Used by developers for leasing pitches, investor demos, and mall launches
- Integrated lighting for shop interiors, signage, and ambience effects
- Delivered models for urban malls, outlet centers, and lifestyle plazas across India and abroad

Government Projects & Smart Cities

- Delivered urban planning and smart city models for state & central government projects
- Showcased transport systems, infrastructure, public spaces, and zoning layouts
- Used for policy presentations, public exhibitions, investor summits, and city vision launches
- Integrated smart elements like traffic flow, green zones, and IoT-based infrastructure
- Served urban development bodies, smart city missions, and municipal corporations across India

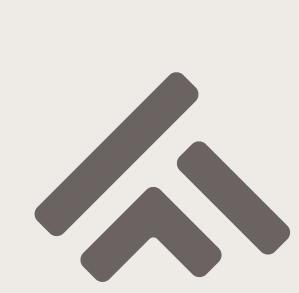

Spiritual & Religious Places

- Built temple, gurudwara, and spiritual center models
- Captured intricate carvings, domes, spires, and sacred architecture with precision
- Used for foundation ceremonies, museum displays, fundraising, and planning
- Integrated lighting for sanctums, pathways, and ceremonial areas
- Delivered models for spiritual trusts, cultural institutions, and heritage projects in India & abroad

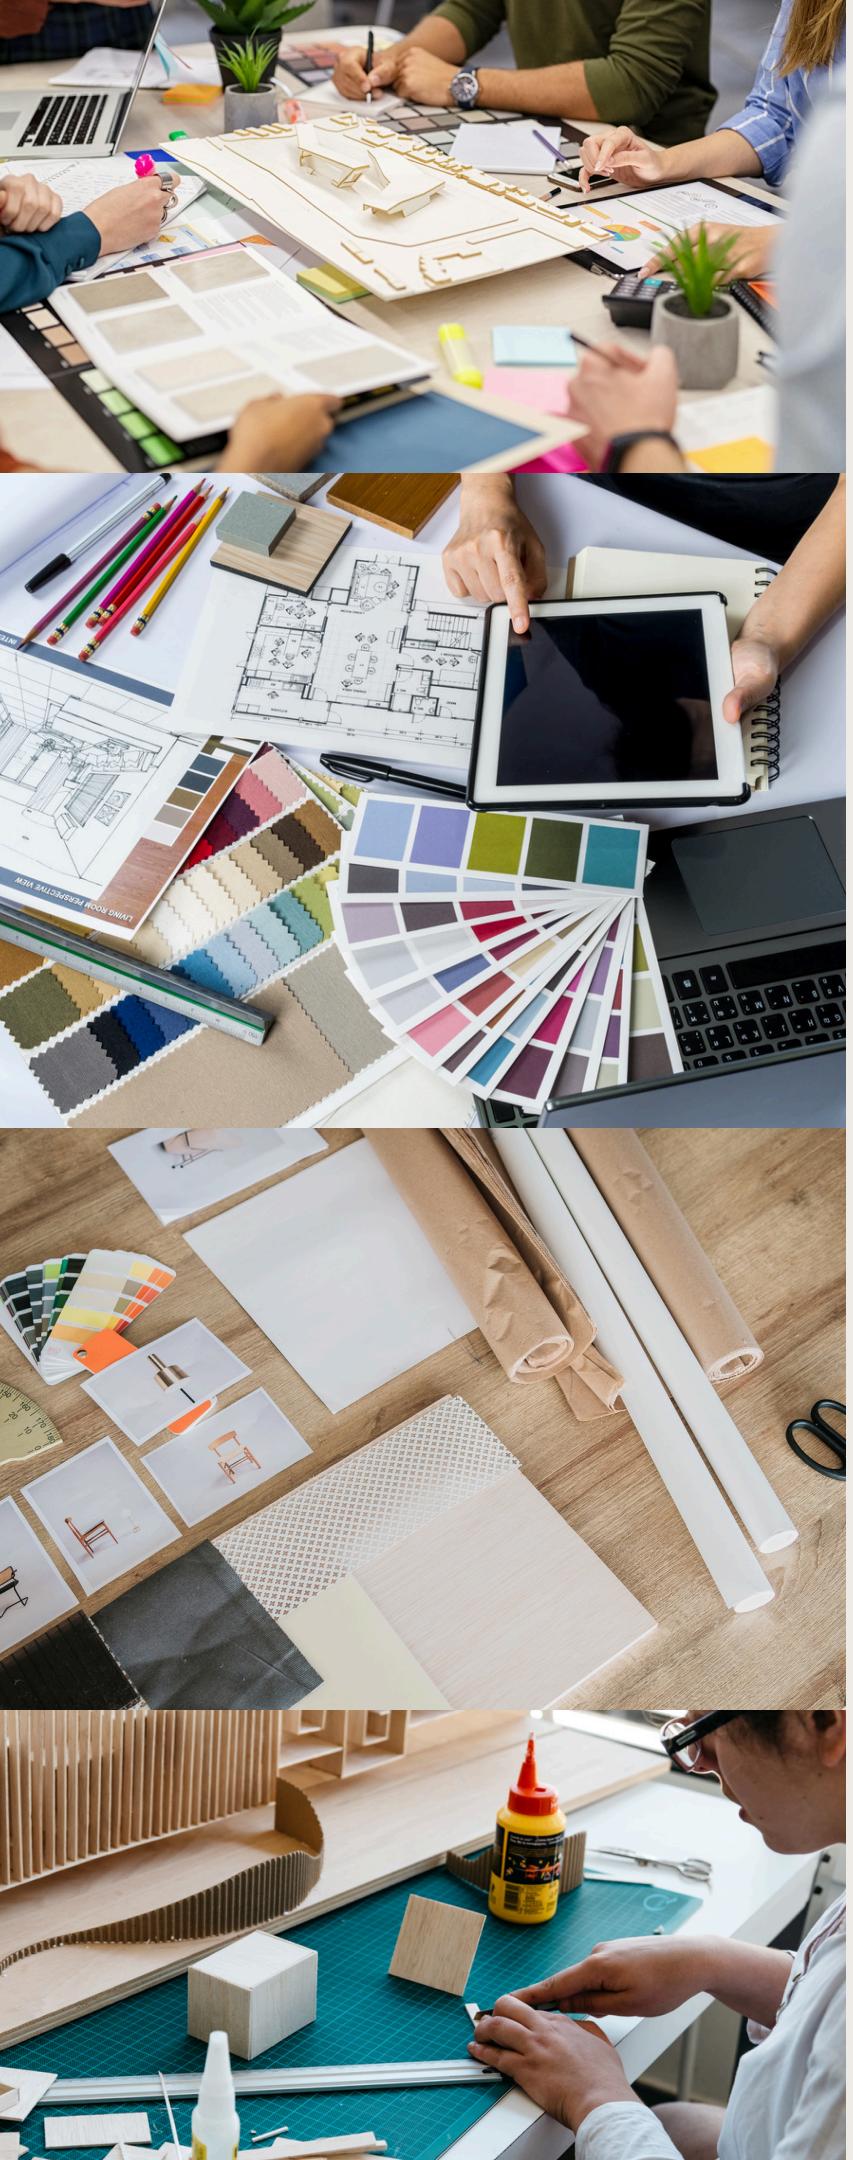

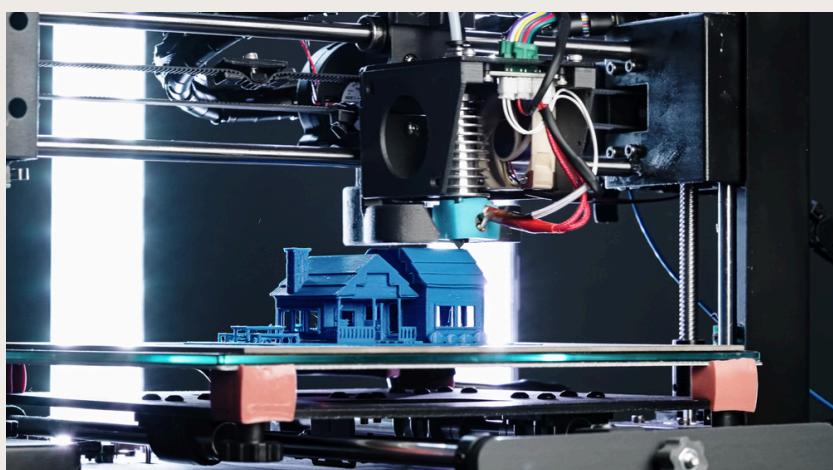

Materials That Define Quality

We believe that the quality of materials reflects the quality of vision. That's why K&K uses only the most reliable, durable, and visually appealing materials.

- Acrylic Sheets (Achrilic) – Smooth finish, clarity, and elegance
- Foam Boards, MDF, and Balsa Wood – Ideal for structural base and 3D elements
- High-Grade Plastic and PVC – For intricate detailing and long-term endurance
- Transparent Panels – For illuminated internal layouts and lighting simulation
- Eco-Friendly & Sustainable Options – Keeping in mind modern green values

Each material is selected based on the project type, budget, and desired finish — ensuring a perfect balance of aesthetics and structure.

Our Technology Edge – Precision Meets Innovation

We integrate advanced model-making technologies to bring designs to life with unmatched detail and realism.

Laser Cutting & Laser Engraving Machines

- Perfect edge finishes
- Intricate patterns and layouts
- High speed & accuracy

3D Printing Capabilities

- Custom textures, small figures, and rapid prototyping (available on request)

CNC Milling & CAD Software Integration

- Digital-to-physical model transformation

LED Lighting & Transparent Views

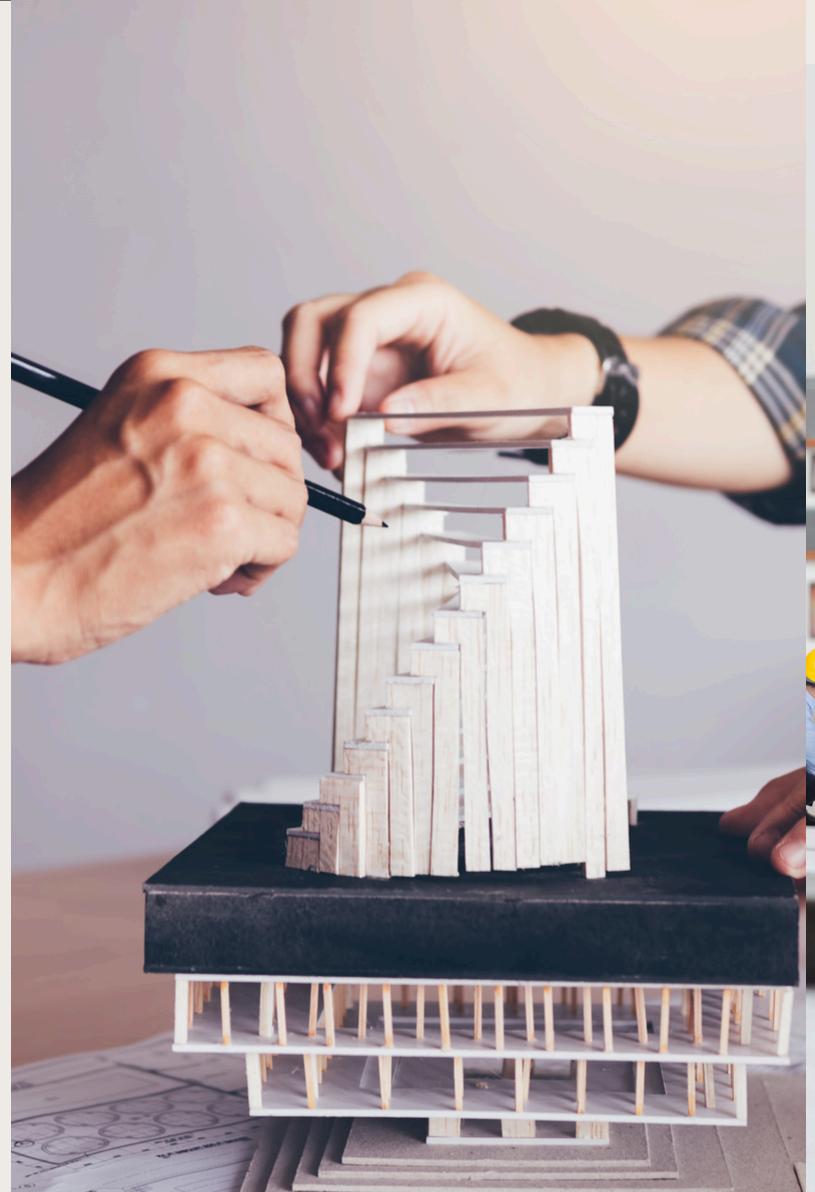

- Night-view simulation and interior display options

We believe in blending traditional craftsmanship with futuristic tools to exceed client expectations.

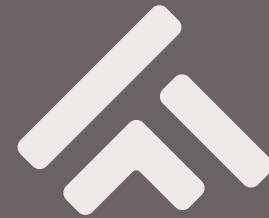

What Makes Us Different

- **Unparalleled Experience:** Decades of wisdom and fine-tuning in the art of architectural modeling.
